Yorozu Receives Mazda FY2024 Carbon Neutral Excellence Award

We are pleased to announce that Mazda Motor Corporation (headquartered in Hiroshima, with Masahiro Moro as President and CEO) has honored us with the “Carbon Neutral Excellence Award.”

The “Carbon Neutral Excellence Award” was given in recognition of suppliers’ proactive efforts in enhancing corporate value through the pursuit of carbon neutrality and their outstanding achievements in CO2 emission reductions. Our achievements in reducing energy consumption have been highly evaluated this time, stemming from our implementation of solar power generation, use of green energy, and streamlined production processes on the global basis. This is the first award of its kind we have received as YoroZu Corporation.

Last year, we were honored with the *C/N Target Achievement Award* and the *C/N Kaizen* (Improvement) Award from Mazda Motor. Notably, we have received the *C/N Kaizen* (Improvement) Award again this year, marking the second consecutive time.

Given our “challenge to achieve carbon neutrality by 2040,” we actively remain committed to reducing CO2 emissions, thereby becoming the first-choice company for all stakeholders.
